If you have ever considered riding a tandem bike, but not sure where to start, we would love to have you join us at the CoMotion Cycles Demo Day. You will be able to test ride quality tandem bicycles that are handmade in Oregon. The combined expertise of Co-Motion's representatives and owners of House of Tandems, Ric and Marcia Becker, will instruct and coach you on what to do and what to expect on your first tandem ride.

Several members of Houston's Tandem Cycling Club - Team HOTT (Houstonians on Tandems Together) will also be available to share their tandem cycling insight and experiences with you. Tandem cycling is a marvelous way to enjoy time together with that special person.

Are you an experienced tandem team dreaming about the next tandem for your team? Do you have questions about how to travel with a tandem? Electronic shifting? Off road riding? Industry experts will be available to answer your questions and offer test rides on Co-Motion tandems. If you are considering touring or adventure cycling come by to see what Co-Motion has for you. Co-Motion is the industry leader in tandem bike manufacturing. Each bike is handmade in the US. Come to the Co-Motion Cycles Demo Day - Houston. You won't be disappointed.
